Subject: Acceptance into Colorado's Environmental Leadership Program

Dear Mr. Woods:

It is with great pleasure that I welcome Clifton Sanitation District as a Gold Leader to the Colorado Department of Public Health and Environment's (the department), Environmental Leadership Program (program). Congratulations and thank you for the effort and dedication Clifton Sanitation District has brought to environmental issues in Colorado.

The program is about creating partnerships among businesses, governments and organizations. The goal is to foster good relationships, reward environmental performance and create a healthier, cleaner and more sustainable Colorado. We look forward to working with Clifton Sanitation District in the coming year(s) to promote the type of commitment and environmental performance your facility demonstrates on a daily basis.

As a first step in establishing our partnership, an agreement between the department and Clifton Sanitation District is attached for signature. This agreement will become part of your application package and a signed copy should be scanned and emailed back to Lynette.Myers@state.co.us. The agreement is simply a means of formally recognizing your facility's participation in the program and provide a structure for the department to offer some of the incentives that your company may qualify to receive.

Again, congratulations and welcome to the program. I encourage you to contact Lynette Myers, Administrator of the Colorado Environmental Leadership Program, at (303) 692-3477 at any time with questions you may have related to the program.

Sincerely,

John W. Hickenlooper  
Governor
